No More Land or Water to Waste

For want of a coordinated statewide land use policy, North Carolina's land and water resources are being wasted, exploited, polluted and depleted.

Unplanned growth is creating urban and rural sprawl, intruding into floodways, over-taxing sources of water supply, overloading waste disposal systems, overburdening public services and facilities and destroying the environment.

It is eroding the available acreage of farm lands and, as the land speculation it stimulates spreads, is artifically inflating farm land values to the point that many farmers cannot afford to hold their land or pay the higher ad valorem taxes inflated land values produce.

It is also encumbering land which should be set aside for public parks, green belts, recreation, coastal erosion control, flood control, water supply reservoirs and for watershed protection, and it is resulting in sedimentation, the lowering of water tables and contamination of sources of seafood.

In urban and urbanizing areas, unplanned growth is compounding problems for local governments, rendering impossible the orderly development and financing of public services and facilities, bringing about decay in downtown business districts and established residential neighborhoods while spurring inappropriate development in surrounding suburbs.

We can't go on exploiting and abusing our land and water resources. We are running out of land and, as many municipalities know, water supply is increasingly a problem.

What can be done? Our humble suggestion is that the 1973 General Assembly create a State Land Use Authority empowered and funded to establish and administer statewide land use policies to check further waste of land and water resources and set a pattern for orderly growth.

As part of its job, the Authority would coordinate the relevant programs of other State agencies, federal agencies and local governments, initiate and carry forward studies of land and water use, identify problems and recommend to the Governor and General Assembly additional legislation to cope with these problems.

Something must be done and done soon. It is already late. By the time the 1975 General Assembly meets it may be too late.

Jim Chaney

INSIDE CAROLINA COUNTRY

a commentary by J.C. Brown Jr., general manager, North Carolina Electric Membership Corporation.

New Game: Why Did Whatisname Lose?

It has been hard for the press and politicians (and us camp followers) to put the election behind us as old news and look to the future.

Rarely does the debate about what happened, and why, center on the merits of the winner but on what the loser did wrong. Particularly interesting is the public discussion of who caused Bowles to lose. Gov. Scott says it was due to his running a campaign independent of the other Democrats. Some of Bowles' supporters say the loss was due to Scott's alleged unpopularity. Others claim Bowles spent too much money (an unusual observation in current politics where it isn't unusual for a candidate for the General Assembly to spend $10,000). Still others claim Nixon's popularity did the trick.

It could be that Jim Holshouser's qualifications and appeal had something to do with it. He wasn't exactly a "Whatsisname." Matter of fact, among the political pros, he was probably better known than his opponent. He served four terms in the State House of Representatives and was recognized as a Republican who could put partisanship aside for principle and the good of the State. He was for three terms chairman of the Republican Party. He has won a mass of citizenship awards from such organizations as the Jaycees.

Happily for the electric consumer, he has a 100 per cent favorable voting record on matters of interest to rural electrification.

It has been an interesting post-election speculative spree, which has led to a new game which I'm sure some alert manufacturer will reduce to a set of rules and gadgetry.

The game as played unofficially, begins with someone whose name escapes you, giving you a sharp elbow in the ribs and whispering: "Election go to suit you?" The implication is that it suited him and he knows it didn't you.

The answer depends upon your involvement in government and the stake you had in the outcome of the elections.

Some of the more skillful answers come from lobbyists and people who do business, or hope to do with business, with the state.

Here are a few acceptable ones used by lobbyists:

Wink, return the elbow in the ribs (hard) and respond: "I didn't bleed much."

A more evasive one: "I wasn't surprised. I figured Nixon would take it."

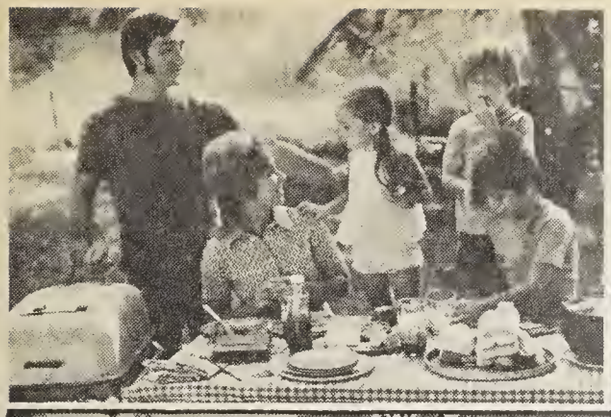
The best: "I told Jim all along a lot of people were going to be surprised."

From career government employees:

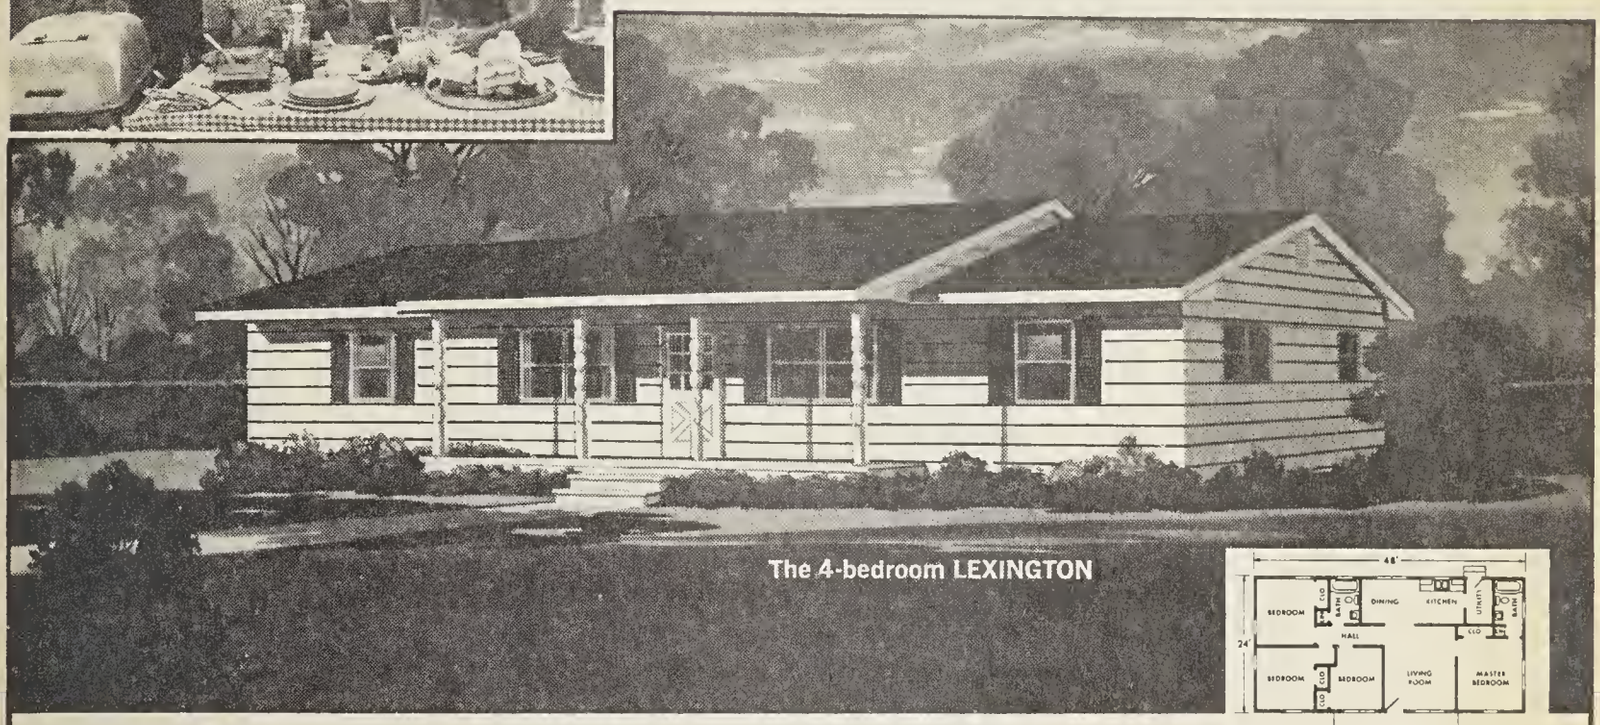
"I've never let politics interfere with doing my duty to God, my state, nation and the American Legion."

Or, "Say, I've been carrying this check around for months. Would you get it to him?"

The Non-Voter: "I had no disappointments."



What do you want... a low cost 4 bedroom home?



Jim Walter builds a better buy!

Some families need a four-bedroom home . . . others just want one. Some don't need or want a home quite that large. But, at Jim Walter Homes it doesn't matter what needs or wants you have . . . we build them all . . . four bedrooms . . . three . . . two or just one. Whatever you want. Jim Walter "better buy" homes are custom built on your property in a wide variety of sizes and models . . . and they all accent comfort and functional beauty with special emphasis on LOW COST. What do you want? We'll build it for you.

And these custom built homes conform to high standards of quality to give you years and years of low maintenance upkeep. You'll spend more of your spare time enjoying your home and your family while your neighbors are fixing up and painting. That's because we use building materials that are especially selected for long life . . . aluminum windows, hardboard "wood made better" siding that holds paint years longer than ordinary siding and heavy duty roofing, to mention a few.

Now, to keep the cost of your home even lower, Jim Walter will build on your property, completely finishing the outside — down to the last nail, the shutters and the paint — but stop at almost any stage of inside completion . . . you do the rest and save money. The handier you are with tools and the more interior work you do, the more you'll save. We'll even furnish the materials and include the cost in your mortgage if you like.

- **OVER 20 "BETTER BUY" MODELS**
- **BUILT ON YOUR PROPERTY**

We offer a complete line of SECOND HOME COTTAGES

INSTANT MORTGAGE FINANCING
to qualified property owners

Call or write your local Jim Walter Homes' manager today. He'll give you complete information and the low cost of building a four-bedroom, two-bath home for you . . . or any other home you want or need . . . and explain how qualified property owners can get INSTANT MORTGAGE FINANCING. Isn't it time you moved up to a "better buy" by Jim Walter? Sure it is.

JIM HOLSHOUSER

A Profile of Our New Governor

By Jerry Blackwelder

"Our state stands on the threshold of greatness, and yet so much needs to be done.

"We must win the battle against pollution in North Carolina, We must win the battle against clogged highways in our cities and muddy roads on our farms. We must build an educational system second to none. We must make a stand here and now to stop the surging crime rate in North Carolina. We must see to it that every man and woman in North Carolina is able to earn a decent living for themselves and their families."

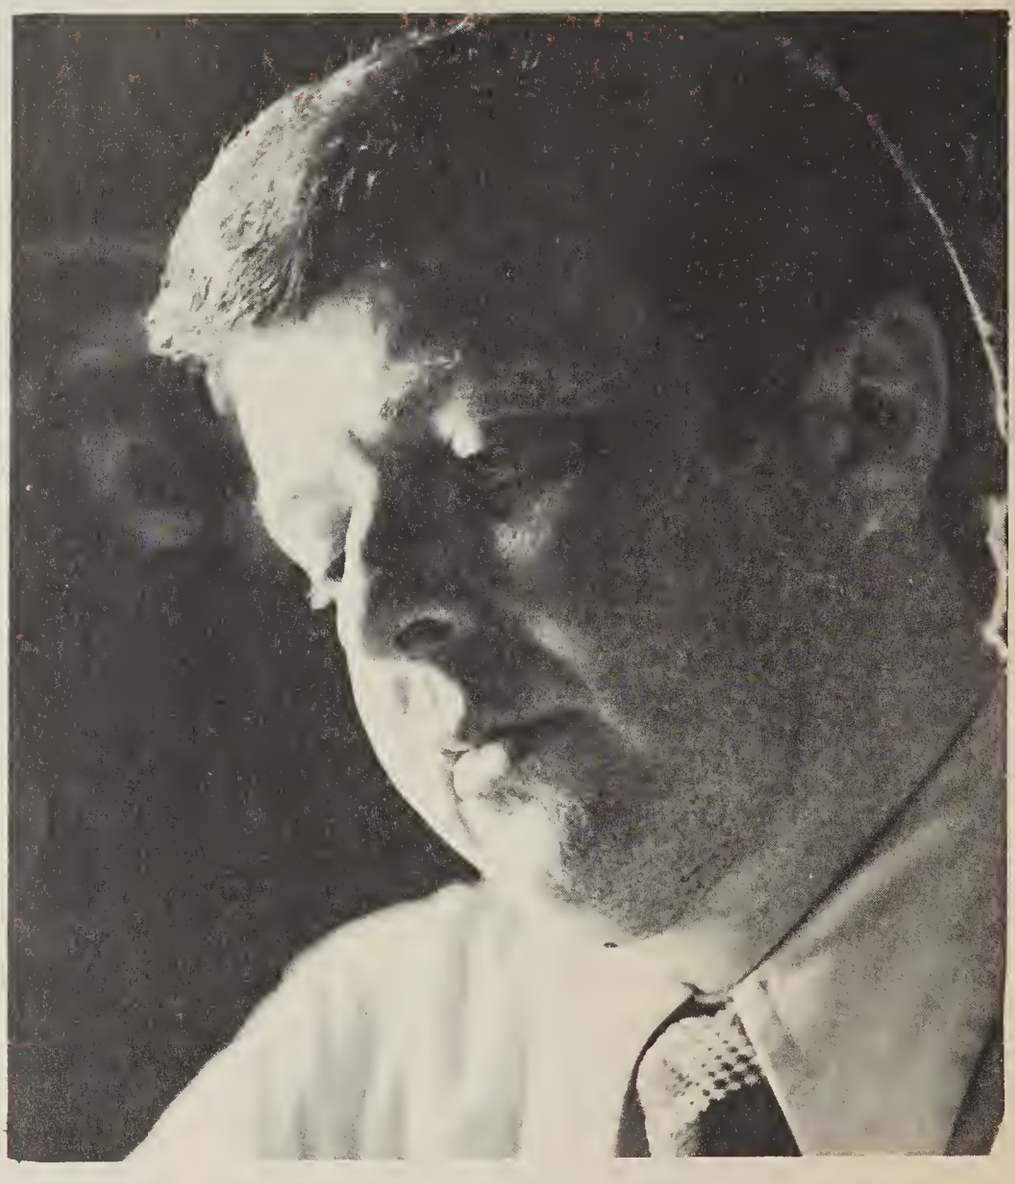
With that statement and those goals, Jim Holshouser launched a campaign that was to take him more than 125,000 miles, cost him a year of work and absence from his family, and provide him the satisfaction of becoming North Carolina's first Republican Governor in the twentieth century.

It's not really surprising that the young Boone attorney decided to go after the state's highest office, because if there is one word to describe Jim Holshouser, that word is competitive.

The son of Judge and Mrs. J. E. Holshouser, Sr., of Boone, Jim attended Watauga County Schools and graduated from Appalachian High School, where he was president of his senior class.

He then went to Davidson College, where his interest in sports and his flair for journalism led him to become sports editor for both the college newspaper and yearbook. After completing undergraduate work at Davidson, he went on to the University of North Carolina School of Law, where he was elected president of his senior class.

He returned home to set up a law practice, but within a short time his desire to win manifested itself in the form of a seat in the North Carolina House of Representatives. In 1962, the 28-year-old attorney ran for that seat, and won it by the largest margin of any legislator in Watauga County's history.



The Governor deep in thought. He is no newcommer to state government, having "learned the ropes" through four terms in the General Assembly.

The freshman Representative did not travel to the State Capital for that first session alone. He was accompanied by his wife, Pat, whom he had married in June of 1961. She graduated from Appalachian State University in time to go with Jim to Raleigh.

Jim would go on to win three more terms in the legislature, and would compile an impressive record of service. He championed many causes, including the fight against the tobacco tax and increased gasoline tax, introduced one of the most comprehensive drug control bills in the country, worked closely in the reorganization of state government, and played a major role in the restructuring of the sytem of higher education in North Carolina.

Although young and new to state government, the future Governor soon won respect and admiration from his fellow legislators of both political parties. His eight years in the General Assembly saw him elected as House Minority Leader and Republican Joint Caucus Secretary. He was also appointed by the House Speakers to serve as vice-chairman of two committees.

On November 15, 1971, when James E. Holshouser, Jr., read his announcement speech in a flying tour of the Tar Heel State, he realized that it would be a long, uphill battle to the Governor's Mansion. It later turned out that he would face Jim Gardner, the Republican narrowly defeated by Governor Bob Scott, in two hard-fought GOP primaries. Then the general election test would come – the race against Greensboro businessman and former State Senator Hargrove Bowles.

The general election campaign was one of issues. Having grown up in a small community, the candidate recognized the problems faced by farmers in those small towns. But he refused to take a regional outlook on the problems of the farmer, and instead looked at the statewide picture.

For example, in a mid-August news conference, Holshouser announced that he would travel to Washington to meet with Phil Campbell, Undersecretary of Agriculture, concerning more marketing time for small tobacco farmers and the establishment of a farm loan program for tobacco. And in that same news conference he advocated the possibility of establishing a cannery in western North Carolina since much of the current tomato crop was going to waste because of inadequate processing facilities.

Hailing from Boone, the home of Appalachian State University, gave Jim a special interest in higher education, and education in general. During the 1971 Special Session of the legislature, he worked hard on the higher education restructuring proposal. He also worked in conjunction with the North Carolina Association of Educators during the gubernatorial campaign, promising an educational package designed to reduce class size, provide increased salary and sick pay benefits and longer working terms. He also pledged to continue his emphasis on the community college system and vocational education.

Jim Holshouser at home in Boone with his wife Pat and daughter Ginny.

"I am committed to the proposition that education must move forward at all levels in North Carolina," he said.

Holshouser's work on the Appropriations Sub-Committee in the General Assembly gave him a special insight into the state's tax structure and revenue needs. In 1969, he had fought the tobacco tax and soft drink tax and the increase in gasoline tax. In 1971, he worked for the repeal or reduction in these taxes.

During the campaign, Holshouser predicted that the state would face a surplus of more than $200 million during the 1971-73 budget period. With this in mind, the candidate pledged to the voters that he would not propose any tax increases during his four-year term. With this huge surplus, he also advocated the repeal of the sales tax on medicine.

He campaigned on the need for a real change in state government, and the necessity of public trust and confidence in elected officials. There will be many new faces in the State Capitol beginning in January, but the Governor-elect has assured the thousands of career state employees that there will be no massive turnover in lower level jobs.

"The President trusts him. So can you." was a phrase often heard in the Holshouser campaign. As chairman of the North Carolina Republican Party during Nixon's 1968 campaign, the future Governor spearheaded the President's effort in North Carolina. In 1971 the President presented him with one of five National Jaycee Freedom Guard Awards, a highly distinguished Jaycee honor.

The state now faces a governmental situation unique in recent history, with the Governor being of one party, the Lieutenant Governor and the General Assembly of the other. But the new Governor expects few if any problems in dealing with the Legislature and the Lieutenant Governor, having worked with members of the General Assembly during the past four sessions.

Governor-elect Holshouser is an avid sports fan, perhaps a holdover from his early days as a baseball outfielder in Boone. He enjoys watching and rooting for his old alma maters, Davidson and Carolina, and for the hometown team – Appalachian. He has been known to play golf now and then, and was frequently seen last summer on the tennis courts at North Carolina State University.

He likes to spend as much time as possible at home with wife Pat and daughter Ginny, age nine, but those quiet Sunday afternoons in front of the TV are likely to be few and far between during the coming four years.

Jerry Blackwelder, a native of Kannapolis was media director for the Holshouser for Governor campaign.

President Richard M. Nixon

Senator Jesse Helms

Lieutenant Governor Jim Hunt

THE PEOPLE'S CHOICE

A new Congress, the 93rd, will convene in the nation's Capitol this month with a new U.S. Senator and three new U.S. Representatives from North Carolina.

The new senator is Jesse Helms of Raleigh, television executive and editorialist and former city councilman. A Republican, Helms succeeds veteran Senator B. Everett Jordan of Saxapahaw, a Democrat.

The new U.S. Representatives are Ike Andrews of Siler City, Charles Rose of Fayetteville and James G. Martin of Davidson.

Andrews, a Democrat, attorney and former State legislator, succeeds Rep. Nick Galifianakis in the Fourth Congressional District. Rose, a Democrat, attorney and former chief district court prosecutor, succeeds Rep. Alton Lennon in the Seventh District. Martin, a Republican, Davidson College professor and member of the Mecklenburg Board of County Commissioners, succeeds Rep. Charles R. Jonas in the Ninth District.

Galifianakis ran for the U.S. Senate – against Jordan in the primaries and Helms in the General Election. Lennon and Jonas did not seek re-election.

Helms will serve with Senator Sam J. Ervin Jr. of Morganton, a Democrat who entered the Senate in 1954 and was re-elected to his present term in 1968. The U.S. Senate has 100 members serving staggered six-year terms.

Andrews, Rose and Martin join North Carolina's eight re-elected congressman (five Democrats, three Republicans) in the U.S, House of Representatives. The House has 435 members elected every two years.

Although President Richard M. Nixon was overwhelmingly re-elected in a landslide victory for the Republicans, Democrats will continue to hold a majority in both houses in the 93rd Congress.

In Raleigh, James E. (Jim) Holshouser Jr. of Boone will be inaugurated this month as Governor, James B. (Jim) Hunt Jr., Wilson attorney and Democrat, will take office as the State's new Lieutenant Governor.

Holshouser will be North Carolina's first Republican governor of the century. Hunt, in addition to his other duties as lieutenant governor, will be president of the State Senate.

With the opening of the 1973 General Assembly, State Rep. James E. Ramsey of Roxboro will be installed as Speaker of the House. State Senator Gordon P. Allen, also of Roxboro, will be re-installed as the Senate's President Pro Tempore.

Both Ramsey and Allen are Democrats. The majority of the 120 members of the House and of the 50 members of the Senate will also, as in the past, be Democrats.

North Carolina's 11 U.S. Representatives follow by Congressional districts:

1st District – Walter B. Jones of Farmville (Dem.)

Counties: Beaufort, Bertie, Camden, Carteret, Chowan, Craven, Currituck, Dare, Gates, Greene, Hertford, Hyde, Jones, Lenoir, Martin, Pamlico, Pasquotank, Perquimans, Pitt, Tyrrell and Washington.

2nd District – L.H. Fountain of Tarboro (Dem.)

Counties: Caswell, Edgecombe, Franklin, Granville, Halifax, Nash, Northampton, Orange, Person, Vance, Warren and Wilson.

3rd District – David N. Henderson of Wallace (Dem.)

Counties: Bladen, Duplin, Harnett, Johnston, Lee, Onslow, Pender, Sampson and Wayne.

4th District – Ike F. Andrews of Siler City (Dem.)

Counties: Chatham, Durham, Randolph and Wake.

5th District – Wilmer D. Mizell of Winston-Salem (Rep.)

Counties: Alleghany, Ashe, Davidson, Forsyth, Stokes, Surry and Wilkes.

6th District – Richardson Preyer of Greensboro (Dem.)

Counties: Alamance, Guilford and Rockingham.

7th District – Charles Rose of Fayetteville (Dem.)

Counties: Brunswick, Columbus, Cumberland, Hoke, New Hanover and Robeson.

8th District – Earl B. Ruth of Salisbury(Rep.)

Counties: Anson, Cabarrus, Davie, Montgomery, Moore, Richmond, Rowan, Scotland, Stanly, Union and Yadkin.

9th District – James G. Martin of Davidson (Rep.)

Counties: Iredell, Lincoln and Mecklenburg.

10th District – James T. Broyhill of Lenoir (Rep.)

Counties: Alexander, Burke, Caldwell, Catawba, Cleveland, Gaston and Watauga.

11th District – Roy A. Taylor of Black Mountain (Dem.)

Counties: Avery, Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania and Yancey.

Rep. Ramsey

Sen. Allen

In since 1954, he serves through 1974

THE BOB SCOTT STORY

An Appraisal of a Man and an Administration

By Russell Clay

Long ago, when America was in her infancy, Ben Franklin issued this advice to whom it may concern: "Think of three things – whence you came; where you are going; and to whom you must account."

Franklin's words seemed to be tailor-made for young Robert Walter Scott when, on the chilly morning of January 3, 1969, he took the oath of office as Governor of the State of North Carolina.

Seldom had the reins of our State government fallen to a man more keenly conscious of "whence he came." The first words the 39-year-old dairy farmer said after taking the oath of office included these: "I will be true to the heritage given me by my Mother and my Father and their forebears. I will uphold the confidence my wife and children have in me. I will keep the faith of my neighbors and friends from Hawfields and Alamance County and throughout the State. I embark upon my task with an unshakable faith in God as the Ruler of Mankind."

He also measured up to Franklin's admonition to know "where you are going." He had this to say:

"We are hard-pressed by a per capita income that is far too low. We will seek to raise it.

Scott at Haw River

"There is too much inadequate housing. We must find a way to remove this blight.

"There are gaps in our programs for public education. They must be closed.

"There are old roads to be improved and new roads to be built. We must find the means to finance this program.

"We are blessed with natural resources – land, air, water, forests, wildlife. Let us conserve them.

"Our local governments are in need of help. Let us strengthen their hand.

"Businessmen and industrial leaders must be assured of stability in government, conditions suitable for expansion of investment, and a firm belief in the free enterprise system. They shall have it.

"Let the timid, the faint-hearted, the foot-draggers, the do-nothings be fore-warned. We are going to make progress during this administration. There is work to be done, and we're going to get on with the job.

"I want the next generation to say of us: 'They planned well; they acted wisely.' There is no better legacy for us to leave them."

Above all, this new governor who was at the same time a son of a governor was determined to take Franklin's advice about remembering "to whom you must account." He told his inauguration audience: "Our State government is a trust – bonded always by the people. It will be a primary goal of this adminstration to strengthen that bond. North Carolina's strength is in its people. To their advancement I am dedicated."

It was on this note that Bob Scott followed the furrow of his late father, Governor W. Kerr Scott, and moved into the Executive Mansion with his wife Jessie Rae and their five little Scotts.

Now, four years later, as he leaves office, how well was he able to get to "where he wanted to go?" A summing-up is in order.

Per capita personal income in North Carolina increased by 26.3 percent, compared with the national average of 21 percent.

An assault was launched on inadequate housing when the General Assembly, at his urging, created the North Carolina Housing Corporation to make low-cost home loans to persons of modest means and unable to get help through the conventional mortgage market.

At least two gaps in the public education system were closed – the first public school kindergartens were established and occupational education courses were installed in the "middle grades" of high school.

Highway construction contracts topped $165 million in each of the four years, breaking previously existing yearly records by more than $20 million.

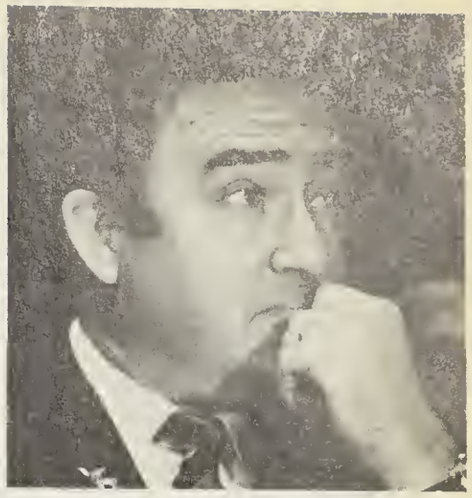
The first comprehensive package of environmental protection measures ever proposed by a Tar Heel governor was enacted, installing meaningful safeguards against misuse of our natural resources.

The hand of local government was strengthened as never before. Large measures of home rule were returned to cities and counties by the General Assembly, which also broadened their base of revenue by enactment of local option sales taxes.

Industry greatly increased its investment in Tarheelia. We landed 1,500 new or expanded industries, respresenting a total investment of $2.3 billion, creating 91,000 new jobs and adding $469 million to our annual payroll.

However history may judge the Scott Years, it would seem reasonable to expect that at least two landmarks will stand out: restructuring of higher education and re-organization of the State government.

When Governor Scott assumed office, our system of State-supported colleges and universities was at loose ends, with foggy lines of authority, wasteful rivalry and duplication of effort. It had been that way for years. Other governors had toyed with the idea of bringing all of the 16 separate



Scott as Governor . . . Addressing the 1971 General Assembly . . . Enjoying a joke . . . weighing a press conference question.

institutions under one central governing board. They concluded that it would be impossible to overcome the ingrained and formidable political establishment allied with Tar Heel public higher education.

Governor Scott decided to try, adopting the outlook of philosopher George Eliot: "Any coward can fight a battle when he's sure of winning; but give me the man who has pluck to fight when he's sure of losing. That's my way, sir; and there are many victories worse than a defeat."

Scott had the pluck and he won. All of the institutions of higher learning were regrouped under a single Board of Governors, bringing order out of the chaos. For the first time, higher education spoke with one voice. For the first time higher education submitted a unified budget. The restructured system became known throughout the world of American higher education as "The North Carolina Plan."

Considerations of a somewhat similar nature were involved in the reorganization of the State's Governmental apparatus.

Down through the years, the structure, like Topsy, just grew. By the start of Governor Scott's term, the organizational chart showed a conglomeration of more than 300 boards, agencies, departments and functions making up a massive bureaucracy. As chief executive, he found it virtually impossible to carry out his constitutional duty to effectively manage State government.

He found himself appointing people he did not know to agencies that he did not know existed.

Reorganization was put to the people in a referendum in November, 1970. The people said yes. They wanted their government reorganized into no more than 25 departments by 1975. Reorganization became not a question of "if" but a question of "how."

The Scott administration waded into Phase 1 of the plan, reorganizing State government into 17 principal departments. Thus, the "cabinet" concept came into North Carolina public affiars.

Being implemented in stages, reorganization is regarded as a giant step toward fashioning a governmental structure that is more economical, better managed, and more in tune with the needs of North Carolinians today and in the countless tomorrows to come.

Those "tomorrows to come" need special consideration, because there is where the real significance of Bob Scott's four years may prove to lie.

Many times he was asked what he thought would turn out to be the single most important achievement of his adminstration. He answered by voicing the hope that he would go down in history as the governor who "planned for the future" of North Carolina.

In many and diverse ways, he sought to frame our State's future, to devise a master plan based on where we want to be 10 years, 20 years, 50 years down the road – where we want to go and how we propose to get there.

The North Carolina Council on State Goals and Policy was established by the General Assembly as a permanent State body, giving it a time frame extending beyond the usual one-and two-year orientation of the typical budget cycle.

A Statewide Development Plan, which divides North Carolina into 17 multi-county planning regions, was devised by the Planning Division of the Department of Adminstration. This plan will point the way to balanced, measured growth, bringing to all sections – rural and urban alike – the benefits of such essentials as economic opportunity, good schools, good roads, good health services, recreation and cultural resources.

Planning for the future . . . This, in essence, is what the restructuring of higher education was all about; what the reorganization of State government was all about . . . what the environmental safeguards were all about. And the same could be said for prison reform. Governor Scott launched the most ambitious program of penal reform ever undertaken in North Carolina, and while a number of preliminary steps were taken, much of the work must fall to his successors.

Planning for the future . . . The list of Scott programs that fall in this general category could go on and on. At every turn, he was saying to his fellow North Carolinians: "We must not stumble into the future."

The administration of Governor Bob Scott began, and now ends, as a partnership between him and the people of North Carolina.

Without the help of the people, nothing was possible. With that help, everything was possible. Because that help was ever present, much was done.

Russell Clay, a former newspaperman, was a Special Assistant to the Governor during the Scott Administration.

BOTTLE GARDENING

The Carolina Homemaker
Edited by Brenda Sargent

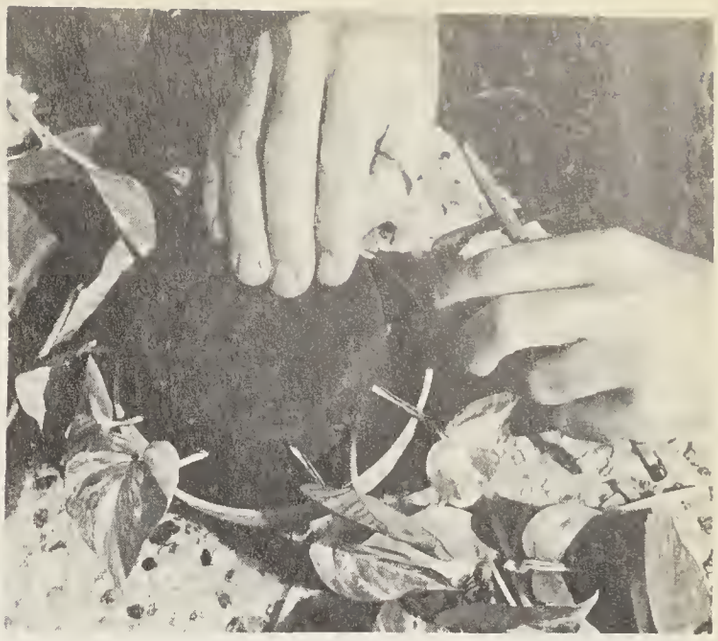
Certain plants root in tap water, many people know, but did you know some plants can grow in a bottle of water year-round? All you need to start a bottle garden are a bottle or container, water and cut limbs or stems from the selected herbaceous plant.

Plant scientists in USDA's Agricultural Research Service advise that any waterproof container can be used – an old canning jar, acquarium, beverage bottle or vase.

Plants that adapt well to bottle gardening included geranium, peperomia, impatiens,wax begonia, hibiscus, coleus, aucuba, ivy, aglaonema and grape ivy. These plants are well suited because many of them already have embryonic root systems at each point where a leaf originates. These preformed roots develop rapidly when placed in water.

Wash the containers with warm, soapy water. Rinse with clean water and dry before filling with fresh water.
Also, wash the plant material thoroughly in soapy water with a vegetable brush.

Cut the stem just below the node (point where leaf originates). The cut should be sharp without damaging the stem.



Remove excess stem and make the cut closer to the upper part of the plant. Put the plant in water immediately. All damaged or dying foliage should be removed. Cut branches should be arranged loosely in the container, with leaves which would be below water removed. Rotate branches in the light so that a uniform foliage will develop.

By using florist's foam, you can make a garden out of individual leaves cut from a long vine of the pothos plant. Each node should be inserted into the foam so that the pre-formed root can develop rapidly. Insert the leaves in a circular pattern. Add fresh cut flowers, watering every 3 or 4 days to maintain freshness. As the flowers fade, replace them with other cut flowers.

Group the container to create a "garden" of bottles. Use such plants as English Ivy, aluminum plant, and peperomia. Remember to add water and replace that lost by evaporation. Water should be replaced at monthly intervals to control the growth of algae. This also keeps the container clean and clear. For better results, add a little water-soluble house plant fertilizer at 1/4 to 1/5 the rate recommended for potted house plants.

ABOUT THE HOUSE

Hand Puppets

Old mittens make attractive hand puppets when button eyes and noses are sewn on and mouths and hair are made of yarn.

Economize

Make a jelly strainer by cutting a large hole in a plastic lid from a gallon coffee can, place a cloth over the can then snap on the plastic ring.

Picnic or Camping Aid

Save the canisters from the new type potato chips. With the plastic lids they make ideal carriers for silverware to picnics or to keep in the camper.

Another Use for Shoe Bag

A shoe bag in a cleaning closet will hold bottles and jars of cleaners, brushes, sponges, etc.

Bottle Collectors

A hint for cleaning inside of narrow necked bottles (like french dressing, etc.) Put an inch or so of soapy water in bottle, then some dry rice (about 2 tbsps), shake vigorously. Removes dried on dressing in a whiz!

Honey Anyone?

If you want to sweeten the sometimes bitter taste of tea, and get a quick "pick-me-up" at the same time stir in a teaspoon of honey. Honey gives quick energy because it is a sugar that can be absorbed,without change into the human system. That's not all Honey is allegedly good for your nerves, too.

Interior Decoration

To give windows a really elegant look, cover curtain rods with the same fabric that's used for draperies. For rods, use the heavy wooden poles that are so popular now. The fabric can be stapled or glued around the poles.

If you have any helpful hints or special information that you would like to share with our readers, send them to: About the House, Carolina Country, P.O. Box 1699, Raleigh, N.C. 27602.

KITCHEN CORNER

January is just the month for a hearty, stick-to-the-ribs main dish like Chili-Corn, and it is sure to be a man's favorite. Why so? Because this recipe was sent in by a man who ought to know! Cedric P. Squires, a full- time State Park Superintendent, part-time wood carver and cook, considers himself a "plain food connoisseur" and he highly recommends this easy to prepare dish. Chili-Corn has been a favorite with his busy family for years.

Mrs. Squires works full-time for Yadkin–Pee Dee Mental Health Clinic. Their daughter is a jewelry crafter in Albemarle and their son attends Appalachian State University where he plays football. The Squires' "second home" is in Hurricain Township and is served by Blue Ridge EMC.

If you have a favorite recipe that you would like to share through this column, send it to: Brenda Sargent, Kitchen Corner, P.O. Box 1699, Raleigh, N.C. 27602. Tell us something about the recipe and any helpful tips you have discovered in preparing it, your family, and the name of the EMC that serves you. We pay $2 for the recipe chosen monthly for this column.

CHILI-CORN

Submitted by Mr. Cedric P. Squires, Morrow Mountain State Park, Rt. 2, Box 204, Albemarle, N.C. 28001.

2 cups corn mean (perferably water ground if available)
2/3 cup butter milk (approximately)
1 to 1½ Tbs. bacon fat or cooking oil
1/2 tsp. salt
1 large can Hormel Chili with beans
1 #300 can whole kernel corn
10 to 12 thin strips sharp cheddar cheese
1 small can of potato sticks

Mix corn meal batter slightly thicker than pancake batter with cornmeal, buttermilk, oil or grease and salt. Pour on medium-hot 10 or 12 inch skillet as a "hoe-cake" and cook til brown on both sides. Heat chili and canned corn in saucepan to good simmer.

Slip hoe-cake of cornbread on a large plate and garnish with cheese strips while hot. Pour good serving of chili/corn over cornbread and cheese. Sprinkle potato sticks over all and serve.

The above recipe will serve four. Cornbread hoe-cakes can be stacked in a warm oven after cooking for serving all at one time.

CONSUMER NEWS

This article has been prepared with the assistance of the North Carolina State Attorney General's Consumer Protection Division. If you have a complaint or information about unfair or deceptive trade practices, notify the Consumer Protection Division, Office of the Attorney General, P.O. Box 629, Raleigh, North Carolina 27602.

GETTING YOUR NAME ON MAILING LISTS. When you sign up for free gifts and special offers, you are often inviting visits from door-to-door salesmen and a lot of junk mail. Many people enjoy state and county fairs. But you should know that many companies with booths there offer "free" gifts or small "prizes" just to get the names of prospective customers. When you sign up for gifts and special offers, you may be required to give your name and address. These names and addresses are made into a list of prospects who showed an interest in winning a certain prize. The company may later sell this list to other businesses, which will they try to sell you their product or service.

For example, suppose you signed up for a free gift from a cookware company at the State Fair. Don't be surprised if you are contacted by a sales representative sometime later. He may ask you to invite several guests to a demonstration dinner at your home. He says he will provide and cook the meal, and you will get your free gift for allowing him to demonstrate his cookware to you and your friends. This kind of free gift offer is usually deceptive because you are not informed that you will have to comply with certain conditions before you can receive your gift. In this case, you would have to get friends to your home and listen to the sales pitch for several hours. The frying pan you get as as a "free gift" may not be worth the time and trouble to you and your friends.

The Consumer Protection Division has had complaints from several people who reported that they got a postcard in the mail informing them that they won a free wig which was supposedly worth $89. The card said their name had been chosen in a drawing, although none of these people had entered a contest.

Apparently, anyone on this company's mailing list was a "winner." In order to get the "free" wig, the "winner" had to pay a styling and postage fee amounting to $13.85.

Some people told the Consumer Protection Division they paid the money because they thought they were getting a real bargain. One lady said the wig turned out to be an inexpensive model, in very bad condition. She returned it to the company and asked them to refund her money. The company had promised a full refund if the "winner" wasn't completely satisfied with the wig. The company responded by sending her forms to fill out, rather than her money. The Consumer Protection Divison was eventually able to help this lady and others recover their money, but it was a long, involved process. This so-called "free" wig offer was just a gimmick to sell overpriced, poor quality merchandise to unsuspecting people.

Many people receive prize offers by mail. Some magazines send coupons which must be returned in order to enter a "contest." When you send in your entry, your name and address can then be put on a new mailing list. A list of people who respond to offers sent by mail can be sold to many mail-order companies.

You should be cautious whenever you see offers for so-called "free" gifts. Few things are really free. And remember, signing up for gifts and special offers can be the way your name and address gets on many mailing and solicitation lists.

Consumers Face Dairy Shortage

The confining life of a dairy famer and the increasing demands of his high investment operation are taking a heavy toll of North Carolina dairy farms.

For the first time in modern history, the state has fewer than 2,000 Grade A dairies – the kind that produce milk for the table. The rate of loss is accelerating. Nationally, the milk cow herd is the smallest since the late 1800's.

The decline, which could mean problems for milk consumers, has come about because old dairy farmers are retiring and their sons and others young farmers don't want to be tied down to the routine of a dairy farm.

A Montgomery County father-son farming team that switched from dairying to crops, beef and pork production is an example. Floyd Williamson, the father, said, "I'm just too old to get under a cow anymore." His son Bobby, making clear his distaste for the confining life of a dairyman, said half in jest, "If I had to milk cows, milk would cost $50 a gallon."

Marvin Senger, specialist in charge of extension dairy husbandry at N.C. State University, recently noted North Carolina has been losing dairy farms since a high of 5,192 was reached in 1954.

"We lost a total of over 300 farms in 1967 and 1968," he said. "Then the rate seemed to level off at about 100 a year for 1969 and 1970. Now it's picking up agin."

As of last July, there were only 1,982 Grade A dairies left. Despite farm losses, total milk production is increasing gradually.

"We're increasing herd size slightly and the average production per cow is going up," Senger said. "But there is a limit to just how long we can lose dairy farms and maintain our level of total milk production."

POET'S CORNER

VERSES FROM OUR READERS

Notes

And the note I sang was a lovely note,
For the song was kind of sad
With rainbows which had no pot of gold,
And legend's whose story was never told.
For no one knew the time of day
And night fell closely by;
And leaves on trees that had never changed
Fell deathly, to the ground.

Toni Stikeleather
Statesville

Books! Books! Books!

Books are for reading and visiting far away places.
With books you can meet so many different faces. You may decide to ride on the Sante Fe Trail,
Or you may want to catch a Great Blue Whale.
You may read fast or you may read slow,
But my, what a wonderful way to grow.

Dean Whittington
Rt. 2, Rowland

Because we Care

Because you will not stay;
The sun will not shine as bright today.
Yet in our hearts there will always be
An empty place – while you're away.

We will not say goodbye to you.
Goodbye's are very sad somehow.
Instead we'll wish you well, my friend.
Perhaps you'll pass this way again someday.

Kay Lynn
Rt. 7, Hickory

Frosty Morn

On a frost morn when everything is glimmering white,
I hardly see from the window as I awake from a restful night.

Jack Frost painted my window with small brush and paint,
made it look real pretty and that t really ain't.

He likes to smear my window as He goes dancing by
With little Brownies and Fairies flying across the sky.

When the sun peeks in the east they all then fly away,
Ready to paint my window pane another frosty day.

Joann Denton
Morganton

Winter

Winter is cold,
You may meet a bear,
But just be bold,
And do not be scared.

Patty Farley
Rosman

I have a Model Son-in-Law, Jim (What would I do without him?)

Because
No matter how major the flaws–
With hammer, pliers, clamp and saws,
(Or if minor) with paint, sweat and gauze
He repairs, redoes and renews geegaws
Or any old thing – to my applause.

Aye,
You must wonder why
Sans alibi I buy
Such antiquated junk – but I
Know why – and tell the world hereby –
He's a grand (re)model(ing) guy!

For from an old cornice he made me a bookcase;
Unleaked an antique umbrella stand's base;
Removed from a second-hand table some glue:
I'm off (!?) to the junk shop for something new–
Without such a son-in-law, what would I do?

Dorothy Webber
Lake Toxaway

Express Yourself

Expresing yourself,
In words and in deeds;
Is an outflowing
Of self-designed needs.

Releasing the feelings
Captured inside;
Helps us more easily
In this world to abide.

Out with the fears,
The joys and depressions;
Voice your opinions,
Let me hear your expressions.

I am eager to hear
All you say or do;
For what I see
Or hear,
Is YOU.

Pat McGinn
Blowing Rock

Evening Lights

I like to climb some lofty hill
At eve when day is done.
I love to watch for lights until
They twinkle one by one.
Oh countless pinpoints in the night,
Could each a story tell?
I turn my fancy free in flight
To wing about the dell.
A thousand stories then unfold
Of love and hate, of hopes and fears.
I ponder millions yet untold
And feel the weight of years.
The wise old moon then seems to nod,
"You fool, the answers rest with God!"

How Do Teenagers Feel About Women's Liberation ?

"Even though the Women's Liberation Movement has often been criticized for their extreme ideas, I, as a teenager, feel that the movement is very beneficial for today's young women as they approach the time when they will be seeking employment or positions outside the home. Due to the Movement women now stand a better chance of being employed on equal pay scales as men and have a better opportunity to obtain jobs that were once only held by men. This, to me, is very essential since many women are reliant on themselves to make a living."

Jan Greer
Box 82 Fleetwood

Jan is 18 and a recent graduate of Beaver Creek High School in Ashe County. She enjoys dancing, church activities, sports and camping. Her parents are served by Blue Ridge EMC.

"Teenagers today feel that women's liberation is a movement toward better tomorrows. Teenagers are seeking a better way in life. By women's liberation, they can change what has come down through so many centures; and they say that they will succeed better if changes are made."

Debbie Hickman
Bladenboro

Debbie is a senior at Bladenboro High and her hobbies are sewing, drawing and playing baseball. Her parents, Mr. and Mrs. Freddie Hickman, are served by Four County EMC.

"I think that the old saying, 'a woman's place is in the home', only goes for some women. Many women do have hidden talents and at some things, they are better than men. If a woman feels she can work as long and as hard as a man, I think she should be able to do so."

Sherry Kay Rector
Morganton

Sherry is 15 years of age and her hobbies include crocheting, sewing and fixing hair. Her parents, Mr. and Mrs. Frank E. Rector, are served by Rutherford EMC.

"I do not agree with Women's Liberation. I do not think that women should have all of the rights that a man has. A man should be the head of his home. He has to support and take care of his family and he has harder jobs to perform and harder decisions to make than women. Men go to war – these things a woman can't do. A woman should be treated like a woman, not a man."

Cathy Johnson
Polkton

Cathy is 16 and a junior at Bowman High School. She enjoys skating and playing the piano. Her parents, Mr. and Mrs. Lester Johnson, are served by Pee Dee EMC.

TEEN ROUNDTABLE

NEXT QUESTION

"Should teenagers be allowed to drive their cars to school?"

This question was submitted by Virginia Lynn Edwards, aeg 14, of Rt. 4, Box 330 AA, Burnsville. Her parents, Mr. and Mrs. Cecil Edwards, are served by French Broad EMC.

If you have a good answer, send it to THE TEEN ROUNDTABLE, Carolina country, P.O. Box 1699, Raleigh, N.C. 27602 at once. Tell us a few facts about yourself – your age, school, hobbies, etc. Include your parents' name and the name of the electric membership corporation serving you. If your answer is published, we will send you $5.
If you want to submit a question, send it along and for each one used the sender will get a $5 check.

I read with interest the article on water pollution or contamination in small or rural communities on the back cover of the November issue of Carolina Country. As stated on the lower part of the page, "A Good Idea Is Worth Sharing."

I recently studied some problems relative to motel/hotel maintenance and construction. To conserve water and insure that all rooms are furnished hot water almost immediately, a continuously circulating hot water system is installed.

Research or investigation should tell you that a recirculating water system in the smaller community would be relatively inexpensive in relation to additional treatment plants, having the water return to the reservoir to be recycled rather than lie dormant and pick up contamination. This would of course require that the distribution pipes be in good condition.

Paul V. Boulia
Havelock

I have read with great interest your article entitled "Food Fun" that appeared in the September issue of Carolina Country. My sixth grade class will be studying foods and nutrition soon and I would like now to prepare for that coming unit. I am interested in learning if this program could be brought to the eastern part of the state, specifically, Morehead City, N.C.

Barbara Onstad
Morehead Elementary School
Morehead City

It's not often I get to look through your magazine. I saw the November issue and liked it very much. You certainly do a good job. Enclosed you will find $1.00. Please send me a copy of Carolina Country each month. I simply like everthing about it.

Mrs. James Thompson
Spruce Pine

The North Carolina Zoological Authority would like to have permission to reprint about 300 copies of the article, "It's Your Zoo," which appeared in the April, 1972, issue of Carolina Country. The reprints will be included with other information materials disseminated by this agency. We would credit Carolina Country magazine.

Marcia H. Constantino
N.C. Zoological Authority

Permission is cheerfully granted, particularly since the new State Zoo will be of particular benefit to our friends and readers in Randolph County and a plus for all the rest of North Carolina's people.

This is to say "thank you" for favoring me with your informative and interesting magazine during the past as requested. I have enjoyed Carolina Country and hope you will continue sending it to me.

Henry M. Alford
Retired REA Field Engineer
Clinton

I could not help but notice the letter in the MAILBOX column of your November issue from a Donald Knox. *(Ed. note: The writer of that letter said he found "it hard to believe" so many enjoy Carolina Country.")* Maybe I am a little dense but I sort of took the remarks made by that gentleman to be a little on the insulting side which, in turn, prompts me to write this letter.

Your magazinge has been coming to our office for quite some time and there is always a rush to see which one gets to it first.

We all go through it and discuss the articles which are of interest to us.

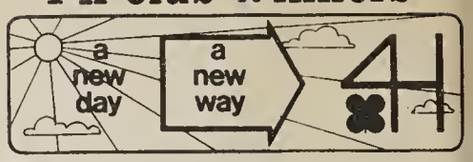
Except for the gentlemen to whom it is addressed, we are "city" folk and all have been born and raised in Georgia, Tennessee and Florida so have never resided in your fair state, but needless to say that does not hamper our interest in your marvelous little magazine.

By the way, my three daughters read more than just the jokes in your publication.

Please send us a subscription to my home. Thank you.

Jackie Adams
Jacksonville, Fla.

4-H Club Winners



Twelve 4-H members from North Carolina were awarded $9,300 in scholarships at the 51st National 4-H Congress in Chicago. Each was named a national scholarship winner in programs arranged by the National 4-H Service Committee and supervised by the Cooperative Extension Service.

Selected on the basis of their 4-H experience in projects and activities, leadership development and growth in personal, community and civic responsibilities, 267 winners nationwide shared $186,700 in scholarships.

The National 4-H Service Committee listed North Carolina's 12 national scholarship winners as:

Neil Carter, 16, of Rt. 1, Fletcher, a double winner, awarded a $700 scholarship in the 4-H Entomology program and a $600 scholarship in the 4-H Key Award program.

David R. Palmer, 18, of Rt. 3, Clyde, awarded a $1,000 scholarship in the 4-H Agricultural program.

Marcia Kay Winnies, 20, of Rt. 2, Chadbourn, awarded an $800 scholarship in the 4-H Home Economics program.

Stanley Rash, 15, of Rt. 3 Clemmons, awarded a $700 scholarship in the 4-H Bicycle program.

Carol Myers, 16, of Rt. 2, Winston-Salem, awarded a $700 scholarship in the 4-H Clothing program.

Vickie Eason, 16, of Jackson awarded a $700 scholarship in the 4-H Dairy Foods program.

Ronald Pledger, 19, of Columbia awarded a $700 scholarship in the 4-H Electric program.

Beverly Sheets, 19, of Rt. 6 Lexington, awarded a $700 scholarship in the 4-H Food Preservation program.

Neil Carter

David Palmer

Marcia Winnies

Stanley Rash

Marvin Douglas Lee, 16, of Rt. 4, Kinston, awarded a $700 scholarship in the 4-H Health program.

Jocelyn Sharpe, 17, of Rt. 1, Summerfield, awarded a $700 scholarship in the 4-H Health program.

Alan Gray McKinney, 18, of Rt. 2, Salisbury, awarded a $700 scholarship in the 4-H Swine program.

Marvin Lee

Jocelyn Sharpe

Alan McKinney

Betsey Lewis

Carol Myers

Vickie Eason

Betsey Lewis, 19, of Rt. 8, Goldsboro, awarded a $600 scholarship for outstanding 4-H leadership.

Contempt of Court

The little old lady being examined for jury duty in a small town was in a nasty frame of mind.

Asked if she knew the defense lawyer, she snapped, "Yes, I do, and he's a crook."

"And the plantiff's lawyer?"

"He's a crook, too."

At that stage in the proceedings, the judge called both attorneys to the bench for a conference.

He whispered, "If either one of you asks her if she knows me, I'll fine you for contempt of court."

Good News First

The caddie rushed up to the first-year golfer and shouted, "I've got good news and bad news! First the good news – you got a hole in one on the 6th hole! Now the bad news – we're playing the 5th hole."

The Long Shot

A fellow from the West showed up at the tracks with an 8-year-old horse which had never been in a race before. Naturally, the odds against him were long, 100 to one.

But he galloped home eight lengths ahead.

The suspicious track officials demanded, "Is the horse unsound?"

"No, sir. Soundest horse you'll ever see."

"Then why haven't you raced him before?"

"To tell the truth, " said the Westerner, "we couldn't ketch him until he was seven."

BEGONIA Hanging Basket

only 10¢

(GENUINE BELGIUM PENDULA BEGONIA)

Starts A Valuable Experimental Membership In WORLD'S LARGEST GARDENING PLAN

FOR INDOOR OR OUTDOOR PLANTING

Easy Growing—Needs Little Sunlight

Truly beautiful heavenly Red trailing Begonia . . . the variety that blooms indoors or outdoors with a myriad of exquisite Red Flowers which cascade all over the hanging basket into a living "falls" of vivid color, enhanced by a background of fresh green foliage. This offer brings healthy large Belgium tuber plus a large 8 inch hanging basket that produces the most successful, colorful, gay and brilliant of all Indoor Begonia Gardens. Truly valuable . . . Yours for only 10c . . . when you fill out and mail the application blank below to start your experimental membership in Flower-of-the-Month.

Here's What FLOWER-OF-THE-MONTH Does for You

Nothing can match the thrill and satisfaction of growing flowers in your own garden. That's why Flower-of-the-Month is set up for flower lovers like yourself. It is designed to help you get more enjoyment from your garden by introducing many ideas, unusual plants and flowers, in addition to the old garden favorites. All year long outdoor or indoor planting monthly selections matching the seasons are picked by our experts from rare and interesting garden stock gathered from all over the world. Our mass buying power means fantastically low, low prices for our members.

Each month you'll receive the interesting GARDEN NEWS magazine with full color pictures announcing the following month's selection plus many alternates available. You always have your choice each month of taking a month's selection or not. GARDEN NEWS also contains gardening hints, facts, useful tips, legends, and tells about other unusual and popular plants for the garden.

- Not only low prices . . . but bonuses galore! With each monthly selection you accept, you receive a FREE Dividend Coupon, redeemable toward specially featured garden selections which will be offered on a regular basis.
- There are no dues . . . no risk. You may cancel your membership at any time after taking as few as 4 items within the next 12 months. Over 100 items will be available, ranging in price from $1.00 up.
- Fully guaranteed . . . if you are not completely satisfied with your Bonus, you may return it and cancel your membership with no obligation. Further, if you are not satisfied with any other selections you receive from us, you can return them within 10 days without paying one cent. Any item not growing to your satisfaction will be replaced FREE (2 year limit).

Mail Coupon for the 10c Begonia Basket and the fun of an experimental membership in Flower-of-the-Month.
